DETAILED ACTION***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a color cathode ray tube and method of manufacturing thereof having, inter alia, a main mask including first beads covering the whole circumference of a skirt portion and an auxiliary mask including second beads formed individually on the skirt portions and situated overlapping the first beads of the main mask, and the height or width of the first and second beads in a superposed portion in which the main mask and the auxiliary mask overlap each other being different from that of the beads in non-superposed portions outside the superposed portion (claims 1 and 5). The remaining claims 2-4 and 6-8 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1 through 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Shimizu et al., Patent No. 6,218,772 ; Shimizu et al., Patent No. 6,608,454 ; Ito, Patent No. 6,455,993.

None of the above patents discloses the first and second beads as recited.

Art Unit: 2828
